OSi permit number EN-002-1006

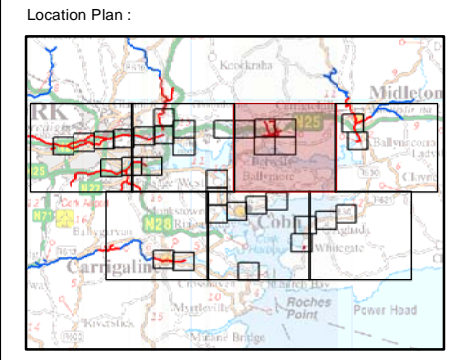

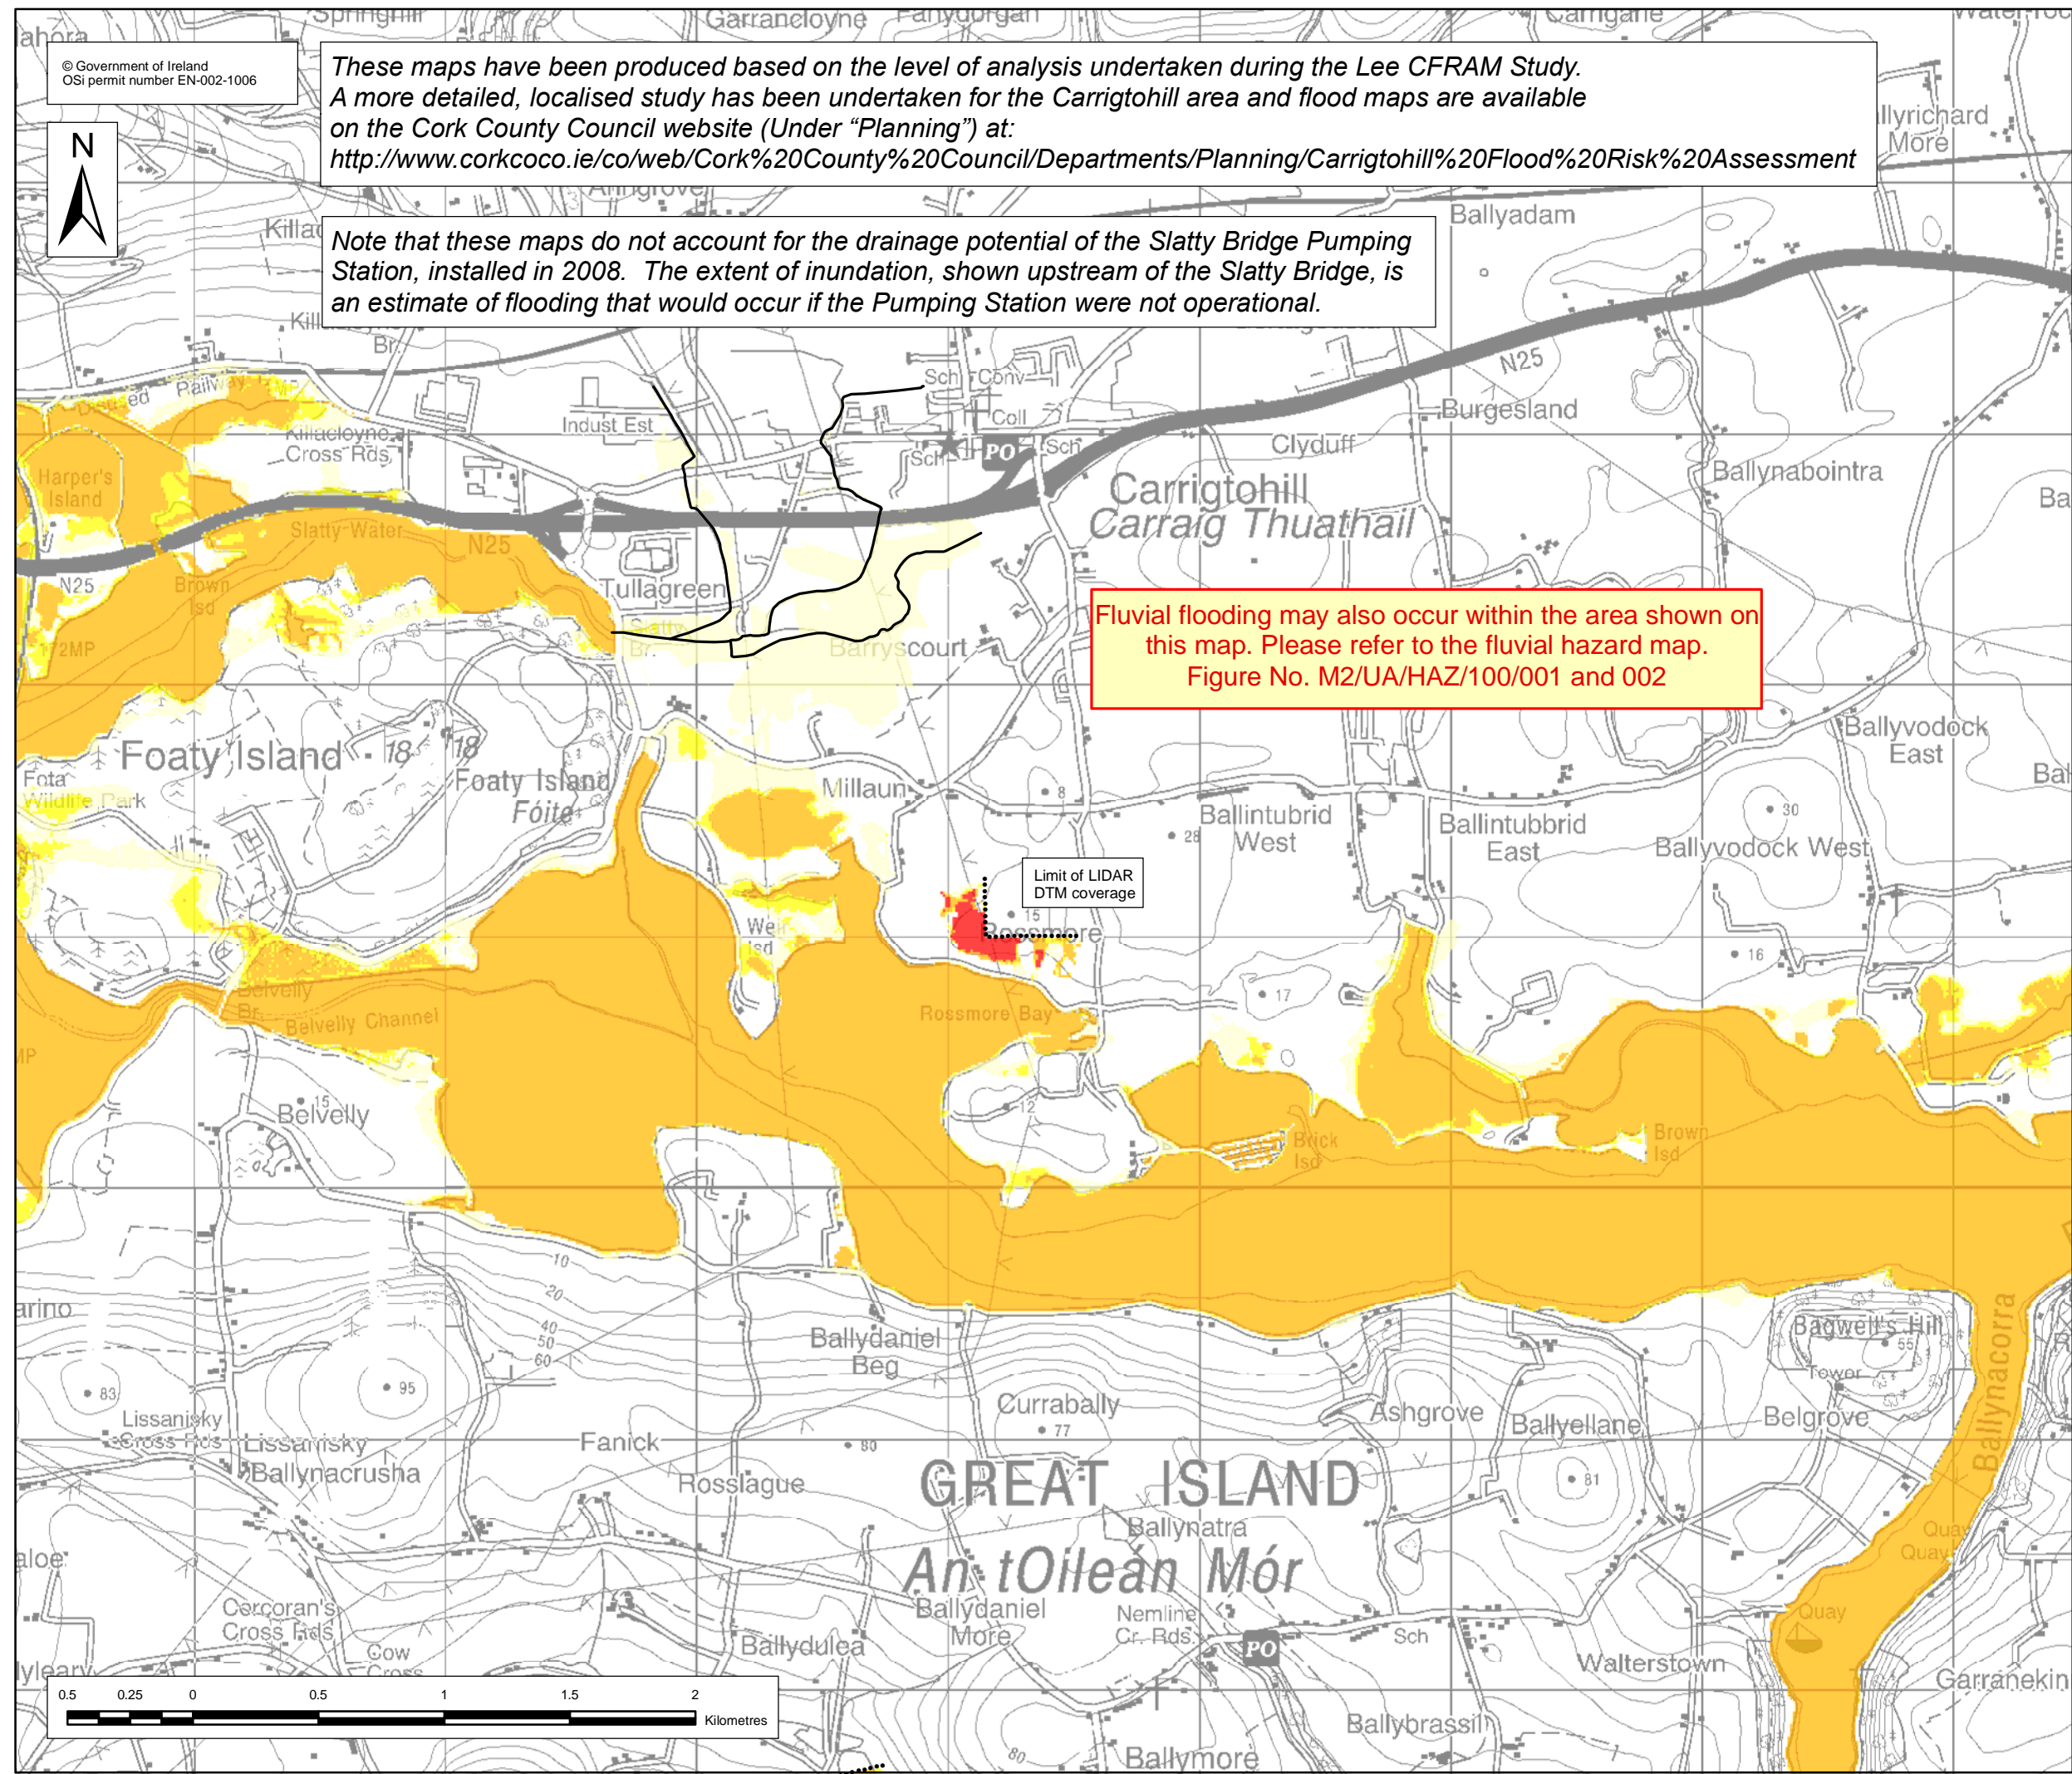

These maps have been produced based on the level of analysis undertaken during the Lee CFRAM Study. A more detailed, localised study has been undertaken for the Carrigtohill area and flood maps are available on the Cork County Council website (Under "Planning") at: <http://www.corkcoco.ie/co/web/Cork%20County%20Council/Departments/Planning/Carrigtohill%20Flood%20Risk%20Assessment>

Note that these maps do not account for the drainage potential of the Slatty Bridge Pumping Station, installed in 2008. The extent of inundation, shown upstream of the Slatty Bridge, is an estimate of flooding that would occur if the Pumping Station were not operational.

Fluvial flooding may also occur within the area shown on this map. Please refer to the fluvial hazard map. Figure No. M2/JA/HAZ/100/001 and 002

Limit of LIDAR DTM coverage

HAZARD MAP 0.5% AEP

- Legend Hazard Grid:
- Low - caution
 - Moderately dangerous for some
 - Significant danger for most people
 - Extreme danger for all
 - River Centreline

USER NOTE :
USERS OF THESE MAPS SHOULD REFER TO THE DETAILED DESCRIPTION OF THEIR DERIVATION, LIMITATIONS IN ACCURACY AND GUIDANCE AND CONDITIONS OF USE PROVIDED AT THE FRONT OF THIS BOUND VOLUME. IF THIS MAP DOES NOT FORM PART OF A BOUND VOLUME, IT SHOULD NOT BE USED FOR ANY PURPOSE.
